Subject: Public Comment in Case #2023-00413

Dear PSC Commissioners,

Public Comment: Duke Energy Case #2023-00413

Duke's proposal will make solar energy much more unattractive to potential users and will hurt the solar industry. As electric vehicles move into the main stream, more energy will be needed. Kentucky is already a solar laggard. It is 43rd among US states for capacity in spite of being a good state for production. It is so tiring to see our state be near the bottom in most things progressive. Opportunities to use solar is important to industry and we need all the new jobs we can get.

Sincerely,
Elizabeth Chandler
