Kent Chandler
Executive Director
Kentucky Public Service Commission
P.O. Box 615
Frankfort, KY 40602

Dear Mr. Chandler:

We are writing to you to voice our concerns about Kentucky Public Service Commission (PSC) docket number 2023-00074. This docket item concerns a proposed 255-foot (total height) tall tower, to be built on property at 1002 Fairview Ridge Rd., Milton, KY, 40045.

We own, and reside at, a property (Carroll County PVA parcel number 03-15) adjacent to the proposed tower site. A portion of our property lies within a 500-foot radius of the proposed tower site. We are writing to request the PSC deny the application.

We already have cellular phone coverage on our property. This causes us to wonder if a tower of this height is truly needed for the area. At its proposed 255-foot height, it will be nearly as tall as the hill on which it might sit.

We request that our letter be given the PSC's full consideration, and would like it entered into the official case file for docket number 2023-00074.

Sincerely,

A handwritten signature in black ink, appearing to read "Alexander S. Johnson and Rachel B. Grimes". The signature is written in a cursive, flowing style.

Alexander S. Johnson and Rachel B. Grimes
