[REDACTED]

[REDACTED]

Dear Kentucky Public Service Commission,

Kentucky Power customers are already paying the highest power bills in the state. We need warm homes, affordable energy, clean air, and a safe climate - NOT HIGHER BILLS. Please reject Kentucky Power's proposal to raise residential rates by over 18%, and encourage Kentucky Power to address already high customer rates with energy efficiency programs.  
Keep Coal Fire Plants. No more raises.

Thank you for ensuring that Kentuckians' voices are an important part of the regulatory process.

Sincerely,  
Kristy Swiger

**Subject:** AEP rate increase

[REDACTED]

[REDACTED]

It would be a gross injustice to the people of Eastern Kentucky to approve a rate increase for AEP. The residents already pay a higher rate than anyone else in the state. The rates were recently raised a couple of years ago and AEP is already asking for another increase. Perhaps they should look inwardly at reducing some of their upper managements ridiculous salaries instead of raising rates for people who are already struggling due to inflation, higher interest rates, and a poor economy.
