Subject: Case Filing #: 2023-00183

[REDACTED]

North Manchester Water Association is my current and only option as a water supplier. I would like to respectfully disagree with North Manchester Water Association in their attempt to raise the rates on their customers. I would request intervention from the proposed rate increase to myself and the customers of North Manchester Water Association. I don't have the right to speak for others in the community that are in the jurisdiction of North Manchester Water Association, but I can tell you this area of Eastern Kentucky is poor and a 27% rate increase to the customers would be harsh: in my opinion. Also, I don't think it should be the customers responsibility to come up with more money to cover North Manchester Water Association's bad decisions and poor management of things from past years. North Manchester Water Association has been in the local paper in the past for management issues and questionable decisions and actions regarding money. I hope it is your decision, not to approve this substantial rate increase on the customers who receive services from the North Manchester Water Association. Thank you!
