[REDACTED]

Dear PSC Commissioners,

Public Comment: Duke Energy Case #2023-00413

Rooftop solar is an all-around good for energy infrastructure in Kentucky. Allowing Duke to reduce the net metering rate further reduces the incentive for individual homeowners to utilize rooftop solar by extending the break-even point beyond the timeframe when many homeowners expect to remain in their homes. Rooftop solar allows homeowners to have more choice in how much power they consume and the public service commission should work to protect access to that choice and not constrain it by allowing Duke to minimize the incentives for it.

Sincerely,  
Jason Worms

Dear PSC Commissioners,

Public Comment: Duke Energy Case #2023-00413

Please do not accept Duke's proposal to reduce compensation for energy customers provide through rooftop solar. Customers deserve to be compensated for the benefit they provide Duke. Rooftop solar also benefits us all by mitigating the impact of climate change, and policy should be designed to encourage it and make it easier for more people to do.

Sincerely,  
Cassandra Lyons
