I am writing to tell you, that I think the Morgan County Ky Water Dist. Rate Request increase of 41% that the Licking Valley Courier reported filed on or around 2-21-2024 is very excessive in my opinion. I feel like I am also speaking for a lot of other people in Morgan County. You should not only not grant them the 41% Rate Increase. You should check into how this office is being operated. This will be an increase of eighteen to twenty dollars in my bill. I am seventy five years old, retired and living on a fixed income trying to buy meds, healthy food, pay utilities, gas and all of the other day to day living expenses. It is not easy.

Our county is a poor county and this increase will hurt a lot of people. You should see how this office is being run before you do this to the people of Morgan County
