State the nature of your concern: I believe that the 41% rate increase is completely out of reason. There are a lot of people on a fixed income that cannot afford what it costs now. Plus there will be people that were going to sign on to county water that will find other alternatives. Why do they need a new building when the one they have serves the purpose now. In the first publication in the licking valley courier Mr. Elam stated that they had 16 employees but yet at the public meeting on March the 11 he stated they had 18 employees if they are bleeding money so badly then why add 2 more employees? I believe it is horrible to expect the customers to pay a 41% increase all at once maybe over time.

Have you contacted the utility about the problem: Yes
