Dear Commissioners

RE Case #2024-00115 KY Power DSM Case -- Kentucky Power needs to invest in more Demand Side Management, not another fossil fuel burning power plant!  
Kentuckians are facing high bills and frequent rate increases. Many, many folks in our area are having to make tough choices to keep the electricity on each month. Energy efficiency, with programs like home upgrades and weatherization, helps keep our electric bills low and our homes warm, safe, and comfortable. Increasing energy efficiency reduces the absolute level of load on the energy system, even during extreme weather events (times of peak demand). This makes our energy system more reliable and more resilient, and can eliminate the need for more fossil fuel burning power plants.

Sincerely,  
Amelia Pickering
