Dear Commissioners

Case #2024-00115 KY Power DSM Case

Our electric bill is outrageous in the winter time, we go from a 110.00 bill to over 300.00 most months in the winter, being on a fixed income makes it really hard to pay my bill in full, sometimes it's having to choose between groceries or electric.

Sincerely,
Robin Reynolds

To Whom It May Concern: These power bills are outrageous and poor people already have to choose between power. food and medicine. I live on disability and the power company takes over half my check. So I say NO to anything that is going to cost us more.

Kentucky Power is gouging the citizens of East Kentucky. MIT has the living wage in Kentucky 19.40 per hour. Realistically many Kentuckians do not make anywhere near this. Especially in East Kentucky. If these people are to survive and improve their lives, KY power needs to be reigned in. Other states don't have this or cap it. I have family in Pennsylvania and Nevada who pay less in their peak times per kilowatt hour.

If other higher cost of living states reign in their power, then Kentucky needs to do the same

Dear Commissioners

Case #2024-00115 KY Power DSM Case

Same old deal every year, ask for 18-22% increase for the electric power bill increase... settle for 8 or 9% and the public thinks the Utility Commission got them a bargain..

Only an elected Utility Commission will ever serve the interest of the consumer ... IMO

This game is lame and old, I see it every year now and others are catching on.

Sincerely,
Larry Thacker

We all see that the weather is changing. Humanity is under evolutionary pressure to adapt to new realities by encouraging - and requiring when necessary - measures to conserve energy and implement the transition to forms of energy that do not distort the Earth's atmosphere.

This may seem to be beyond the jurisdiction of the KY Public Service Commission, yet it is for people like you - decision makers in positions of authority - to begin and further measures we know we must take to keep a full life possible for the coming generations.

Thank you,
Sam Avery
