Comments

I'm not in favor of solar and think that it is ruining our farm lands. I think there are alternative options such as parking roofs and businesses and outparcel such as old coal operations. The power from these doesn't necessarily even go to us. Please, do not allow these to happen in our bluegrass!

Public Service Commission,

Please, do not allow solar farms in our Bluegrass. The website would not accept my message above and wanted it to be known.

Thank you, Jason Justice [REDACTED]
