To whom it may concern

I was out of town when I received a letter from a law firm concerning this cell tower. I have been trying to call them when I can but they have not responded. Rosemary answered when I called you and told me to write you through this email. I do not want a cell tower near me. I have just recently purchased this property and had no idea this was a proposal, if I had would not have purchased it. I looked at alot of property and did not consider any with major electrical lines or cell towers near it. This is a large facility and it will also be an eyesore not just unhealthy. What are my rights in this proposal? Thank you for your time.
