To whom this concerns:

I'm a customer of Navitas Ky N.G. LLC.
I just received a letter informing me that
they requested a bill increase of 76%. As
one retired with a fixed income this is
way to much increase. My bill I
just received showed \$9.46 gas usage, Purchase
adjustment \$4.48, Charge to fix line up to house \$1520
monthly (higher than total usage, purchase adjustment,
& school tax or 42 cents). I have lived here over
50 years and never had a line leak. This charge
alone is price gouging. Please don't grant them
a price increase to a out of state CO. that
rates are already higher than Lexington.

Thanks
Terry Delaney
