Home phone: [REDACTED]

Comments: This comment is in response to the Notice of Proposed Changes in Gas Tariffs published in the Bowling Green Daily News by Atmos Energy on October 1, 2024. The residential Monthly Base Charge is proposed to increase from \$19.30 to \$25.00, an increase of 29.5%. What is the justification for this significant increase? While gas usage rates also are rising, consumers can mitigate the impact of those increases by managing consumption, but a substantial increase in the monthly base charge applies to all users and cannot be moderated by consumers.
