Subject: Comment on Case # 202400310

Dear Kentucky Public Service Commission,

EKPC member owners and residents in Liberty shouldn't be on the hook for their dangerous investment. **We** need warm homes, affordable energy, clean air, and a safe climate - NOT a dangerous generator in our community. Please reject EKPC's proposal to build the Liberty RICE unit, and encourage them to instead address energy needs through investing in renewable energy options like batteries.

Sincerely,
Mrs. Wendy P

Dear Kentucky Public Service Commission,

Please oppose the construction of a dangerous new generator in our community, and reject EKPC's Liberty RICE unit proposal. We must address energy needs through renewable energy options, which will also give us cleaner air and not contribute to the climate crisis.

Sincerely,
Ms. Danica Novgorodoff

Subject: Comment on Case # 202400310

Dear Kentucky Public Service Commission,

I am a Blue Grass Energy Coop and EKPC member owners and residents in Liberty shouldn't be on the hook for their dangerous investment. We need warm homes, affordable energy, clean air, and a safe climate - NOT a dangerous generator in our community. Please reject EKPC's proposal to build the Liberty RICE unit, and encourage them to instead address energy needs through investing in renewable energy options like batteries.

Please do not build a mega-watt generator using natural gas. We need more solar and wind energy or even hydro plants. Be better, power coops! Utilize only sustainable renewables and not fossil fuels.

Sincerely,
Mrs. Cecilia Mitchell
