Here is Teena Halbig's position:

Please Retain 502 for those given 502 phone numbers and ADD a NEW area code for additional phone numbers. I have seen this many years ago where an area has a couple of area codes within the region. This is the most FAIR way to handle the issue. There are personal costs if existing phone area codes would change from 502: business cars, stationery, business signs on windows, doors, etc. Billboard signs might need changing, some phone numbers on autos and trucks and trucking businesses or businesses with one or more vehicles or fleets. Also many have home numbers and cell phone numbers for father, mother, children, grandparetns, ill persons, etc. which means a lot of changes.

I am in favor or only **adding an additional zip code** to the area and **I oppose removing 502 and giving a different code**. A different code may also run out over time.

Sincerely,
Teena Halbig
