We are writing you as a citizen advocate of my community. Concerning the Solar Panel Project, planned in Bon Air, Merry Oaks, Rainton and Park City. We are not for this for many reasons:

- 1) Takes away from farmland
- 2) Unhealthy for people
- 3) Panels not made in the U.S and will not be installed by local laborers.
- 4) Who is paying for this?

We appreciate all that you have done but we are worried about this coming to our ~~area~~. We are not in favor of this at all.
