COMMISSION

RE: Case # 2024-00337

Dear Commission Members,

I am writing to **OPPOSE** the planned solar project in Barren County Kentucky.

Wood Duck Solar Project, if approved, would neighbor my home and farm located at 3259 Park City Bon Ayr Road, Park City, KY 42160.

Myself and my neighbors, who are not the benefactors of monetary gain from this solar project, do NOT want to be surrounded by solar panels. I can imagine that you would not want to be surrounded by solar panels either.

This project will ruin the peaceful country atmosphere, impact the wildlife which is abundant in this area, and I fear will reduce our property values.

Please vote to prevent this project from moving forward!

Thank you,

Jeff Aidala
