**Subject:** Solar project ref.case #2024-00337

Sent from my iPad. I'm writing in objection to the WoodDuck solar project. These solar farms never produce enough energy to pay for themselves. Farmland destroyed and companies take the money and run. I live close proximity to Mammoth Cave and want to preserve our cave. Why take any chances on this affecting our ground and water systems? So the Green Energy people worry about manure from livestock in the streams but it's ok to advocate for something much worse. Please don't allow this to happen to our precious farmland and cave. Why not use land that has already been contaminated or destroyed? Please vote NO. I also request notification of your plan of action. Concerned citizen of Barren County. Thank you, Donna Coulter Williams
