Subject: Case no. 2024-00337

I'm writing in objection to the Wood duck solar project. These solar farms never produce enough electricity to pay for themselves. In the mean time the farm land is destroyed and the company has taken their money and ran.

That is beside the FACT that the contaminates will affect Mammoth Cave and our ground water. These Green Energy people are always worried about a cow taking a poop in a stream but they advocate for something so much worse.

If they want to build solar farms, let them build in abandoned strip mines where the land had already been destroyed.

I request notification of your planned action in this regard.

Sincerely

Elanor Griffin
