Comments:

From my understanding this project location is within 1 mile or less from our home. We were also informed that all properties effected by this project would be contacted. We have received no information regarding Project Wood Duck and only became aware of it when we noticed signs opposing this project at our neighbors houses. If the county is going to go against the desires of us who live in this area and continue with this project then the county should be contacting everyone that will be impacted by it. I understand the goal is to get this project approved without objections and the best way to do that is to hide it from those that will be impacted. I will be certain that any elected officials who have backed this project will not be voted for on my ballot next time Im at the ballot box.
