Case # 2024-00337

Wood Duck Solar

Dear Commissioners:

Again, I am writing to you in response to the Wood Duck Solar Panel project that is being proposed here in Barren County. It is a very concerning situation for the great number of citizens who are opposed to it. Surely we have a voice & a choice in this matter.

Those of us who are opposed to this project have made our voices heard from our correspondence to you ... our gathering with local public officials, etc.

A question, why were we not appointed a representative to help us in this effort? As citizens, we have a right to be fairly represented.

You can help us ^{and} we are asking for your help to stop this destruction of Barren County.

Will each of you consider each public comment's worth in this matter?

Again, I ask how many lives will be destroyed by this ~~proj~~ project ^{and} its future should it pass.

Once these panels are approved, if they are, in fact, approved that will be the end ... their damage cannot be undone. Thank you for your attention to my voice.

kindest Regards,

Margie Sawsey
