PUBLIC SERVICE
COMMISSION

To whom it concerns:
Solar Farms in Ky. Barren Co.

There will be 2 farms in my
Community that are so called lease for
solar farm.

one is directly across from me and
the other is around 2 - 2 1/2 miles
I know these farmers were approached
as early as 2023. One farm was
logged all year in 2024 and finished
in 2025. One was leased in 2023 and
had been leased since 2019 year by
year for cattle + hay. They were told
in 2023 they would have to be off
at the end of 2023 due to leasing
for solar farming. They knew
about long before early part of 2023.
I am not for solar farm close
to people living in communities.
We people were not asked what we
thought about anything pertaining to
them -

I ask you to consider the communities
that had no idea what was going to
put around us.

I feel that it has been handled
in secret and kept hush hush!

I ask you to say no to Wood
Duck or whatever they call themselves

Sincerely
Charles & Hope Attrip

P.S. It will also damage watershed
and we are close to Mammoth Lake.
20 miles across country -
