Subject: Public Comment in Support of Wood Duck Solar - PSC Case No. 2024-00337

Dear Kentucky PSC,

I am writing to express my strong support for the Wood Duck Solar project in Barren County (PSC Case No. 2024-00337). This 100-megawatt clean energy project represents exactly the kind of responsible economic development our community needs.

Wood Duck Solar will create good-paying construction and maintenance jobs right here in Barren County – jobs that can't be outsourced and will strengthen our local workforce. The project will generate substantial tax revenue that flows directly to our schools, county services, and infrastructure improvements, providing long-term economic stability for decades to come.

This project respects landowner rights and supports our farming families by providing reliable lease income that helps farmers keep their land and continue agricultural operations. Solar operates quietly and cleanly, making it a true good neighbor that preserves our rural character while bringing modern economic benefits.

Wood Duck Solar represents clean energy leadership that positions Kentucky for future economic growth while respecting both our economic needs and our commitment to responsible development. The benefits – jobs, tax revenue, and economic activity – stay right here in our community where they belong.

I urge the Public Service Commission to approve Wood Duck Solar for Barren County. Thank you for your consideration.

Sincerely,
Mx. Shannon Crowe
Crestwood, KY 40014

Subject: Response to Wood Duck Solar's solicited Support letters

Good afternoon,

I have seen many canned response/support letters added to public comment records in the past couple of weeks.

I am hopeful that the committee takes into consideration the public comments that are in fact residents impacted in Barren County, KY and not solicited support from individuals who are far away and have no vested interest in the project.

I too received a call from someone representing Wood Duck Solar soliciting support, which of course I declined, because as a resident of Barren County, I know the detrimental impact to those not profiting from the land leases.

It is VERY telling that these support statements are from those not nearby and that these individuals do not even have thoughts of their own about the project so templated statements have to be used.

Thank you for your continued willingness to review Barren County public comments,

Gwynne Aidala

ACTUALLY IMPACTED BY THE PROJECT

1595 Park City Bon Ayr Rd.
