Utility Name: South Kentucky RECC

State the nature of your concern: Concerned with RECC proposed increase on residential electric rates. Proposed increase is residential only with no increase to

business, schools, etc. This places unfair burden to residential. Most families are struggling already, having to decide between food, medication and now utilities. I feel that residential was chosen for increase because no complaint from residential, while big business would definitely complain. Furthermore, most residents do not read the Kentucky Living magazine to be aware of proposed increases. The elderly have difficulty reading and understanding. I feel increase would be more fair divided between residential and business, schools, etc. Please consider denying the proposal as it is written. Thank you for your consideration. Sincerely, Phyllis Inman
