Utility Name: Morgan County Water District

State the nature of your concern: The Morgan County Water District is proposing a 41% rate hike on customers monthly water bills. People on fixed incomes like social security can't afford to pay such an increase. They're already struggling to pay electric, phone, insurance and housing, let alone put food on the table. Such a rate hike would force many on fixed and low incomes to struggle to pay all their bills and some would be unable to do so.

Have you contacted the utility about the problem: No
