After watching the hearing video from May 2nd, how has the GM not been fired. It's not the people of Morgan County responsibility to pay for personal spending accounts and for the hiring of new employees they knew they couldn't afford to bring on.

State the nature of your concern: My biggest concern is not only do they want to raise our bills 41 percent now they want to charge us an emergency 25 percent increase until the 41 percent kicks in ., The people of Morgan County can't afford to pay this increase ! They could keep them both ! The people of Morgan County shouldn't have to pay for the hiring of employees Nor them running up bills at Amazon !

Have you contacted the utility about the problem: Yes

State the nature of your concern: The rate increase is my concern. They aren't doing enough to cut cost. The employees drive the company vehicles and use them for personal use. Drop their kids off at school and pick them up, the grocery store etc..... The majority of people in this county live hand to mouth.. a rate increase will cripple the already struggling customers.
