The proposed tower is directly across the road from my father in-laws home at 4656 State Route 339 E, Sedalia, KY 42079. When we sit on the side porch where we gather in the summer we will be staring right at the tower. It would work better if the tower were moved west on the property so that it is not seen from the porch. I have pictures to submit to show what I am talking about. Thank You.

Respectfully,  
Richard Farris
