**Subject:** Public Comment in Case #2024-00115

[REDACTED]

Dear Commissioners

Case #2024-00115 KY Power DSM Case

Customers like myself and so many others in Southeastern Kentucky are already financially hard-pressed enough to pay our utility bills as it is and the higher the increases are, the more difficult it becomes to keep everything paid and still have money for the other necessities of life such as food, shelter, clothing, and medicines for ourselves and our families.

The majority of customers simply can't afford, as a whole, to fund the building of a new power plant of any kind when the existing system would be better served by improvements in energy efficiency and etcetra rather than Ky Power netting a huge profit from off the backs of their customers by building new power plants.

Therefore, I urge the Commission to move that Ky Power use better efficiency methods, programs, products, and tools to help lower electricity bills rather than always wanting to keep raising them and putting even more of a financial burden on their customers.

Sincerely,  
Dessie Jones
