## RECEIVED

AUG 29 2025

PUBLIC SERVICE COMMISSION

PO BOX 703 COVINGTON, KY 41012

August 25, 2025

Ms. Linda C. Bridwell, P.E. Executive Director Public Service Commission 211 Sower Boulevard Frankfort, Kentucky 40602

Dear Ms. Bridwell,

Today I received the order from the PSC, dated August 18, 2025, in my case against Duke, number 2024-00123. This missive should serve to clarify one significant point that needs revision before the hearing is scheduled, and act as my witness list for said hearing.

I am unclear about the nature of the erroneous information the PSC has proffered for the impending hearing but there clearly is an error. My complaint was filed not just for electric rates at my residence but equally so **for gas rates**. That is resolutely stated on the complaint I filed in April, 2024, a copy of which is included for verification. Indeed attachment four of the June 13, 2025 Honaker Law Office submission to the PSC contains the gas rate information that should be part of any hearing. Please revise your order to properly reflect both gas and electric rates in question and thus subject to review at the hearing.

Also, if permissible please allow this document to serve as my witness list, which includes only myself.

Thank you.

Sincerely,

Sam Droganes

Phone number where you can be reached: Utility Name: Duke Energy

I purchased the building where I live in 2022, but it has been in my family since it was built in 1918. The city and state forced the closure of the business that had been on the first floor since 1932, in 2016. Since then there has been no commercial enterprise there, nor is there going to be, as long as I own the building, which will be until the day of my death. Despite this, Duke refuses to status the location as a residence, but to make more money wants to call it a business. They have greatly frustrated me and wasted dozens of hours of my time, as I started this procedure Control of 29, 2023, followed their protocols, filling out a rate change form, only to be told weeks later that that does not apply in Kentucky. I got a BPEM number, only to be told months later that the case was and had been closed, but no one informed me of that. Now I am told that to be considered a residence Duke's requirements include having a bathroom, bedroom and kitchen on both floors of my structure. In short, not every house has a bedroom on each floor, some do not have a bathroom on both floors and I doubt most have a kitchen on both floors. There is not and will not be a business in my residence. There is no city, nor county occupational licenses, no Kentucky Secretary of State filing, no tax records and the property taxes are in my name. That should be more than enough to satisfy the fact that there is not a business here, nor is there going to be a business. Moreover, to open a business in this place is further complicated by the fact that this is an historic district, which brings all kinds of restrictions and added requirements, should a business wish to locate here. If they want to draw it up, I am even willing to sign an affidavit to the effect that I will not operate, allow or permit, in any way, a business to operate here. I should not be burdened with this in this way. Duke is being completely unreasonable. Please schedule a hearing where I can have my grievances honestly considered. Thank you.

Have you contacted the utility about the problem: Yes
