State the nature of your concern: Received notice from utility firm dated September 19, 2024, about rate increases for their natural gas services in Albany KY. The planned increases in 4 phases for residential services, will go from \$8.00 to \$19.50, \$24.50, \$29.50, \$34.50 per month respectively. This 331.250% increase doesn't include the increases planned for gas usage. This is nothing short of price gouging and should never be approved by the state of Kentucky. My disabled, special needs, daughter who resides in the residential house heated by natural gas will never be able to afford this expensive gas bill. Please consider residents who are elderly, disabled and on fixed incomes when making your decisions. Thank you.

Have you contacted the utility about the problem: No
