**Subject:** Barren County Wood Duck Solar Panel Project

Having Mammoth Cave National Park, a federally funded and recognized treasure for our entire nation, here in our own little county and NOT seeking to consult nor work with them regarding the Wood Duck Solar Panel project in Barren County is extremely concerning. That inaction, whether intentional or negligent, casts doubt on the "cleanness" and "greenness" of the project.

Why not remove that doubt in the mind of the community and actively seek to engage and partner with Mammoth Cave National Park at this juncture? Doing so would alleviate concerns of distrust and allow both sides of the argument to move forward together happily...unless, of course, the truth of the matter is intentionally being hidden or distorted.

As Jesus said, "Let what you say be simply 'Yes' or 'No'; anything more than this comes from evil."  
(Matthew 5:37)

What harm could possibly come from working with Mammoth Cave National Park to ensure that our area's largest attraction remains a national treasure and continues to draw millions of visitors annually for generations to come?

Humbly and sincerely,

Jeremy Prichard

Concerned Barren County Resident
