Subject: Lost City Solar Project

To the PSC site committee,

My name is Darrin Benton Muhlenberg County Magistrate District #2. It is very disappointing not to have been able to attend this hearing in person due to another out of town commitment that was not able to be rescheduled. I'm in hopes that the next meeting might be scheduled with more notice.

I do know that there are legislation KRS 278.704 states setback requirements offered up by legislation. I also understand that the siting board uses a different standard that circumvents the statutes. The board make up only allows 2 people appointed with the county of the project, which ultimately puts us in the minority of the decision process. I would ask you to

Please consider adjoining property owners in your decision process. Moreover please consider for yourself, the home that you live in and the preferred distance you would accept from your home, not merely a cookie cutter decision hours away from your residence. I hope to be able to attend the next hearing whether in Muhlenberg County or in Frankfort. I hope to be able to discuss this further in person.

Sincerely

Darrin Benton
