Subject: "Excess energy capacity"

Docket #2025-00045

LG&E had to have the pipeline that cuts through Bernheim Forest to "be able to serve their residential customers". Now we're told that a rate increase will result in excess energy capacity that will enable them to serve data centers.

What a great bait and switch. Lie to justify what you want and lie again to change direction.

IDO not allow this rate increase without restrictions on what it can fund. We are tired of paying for stockholders to reap profits from our pockets.
