Subject: PSC Case #2025-00045-LGE-KU CPCN

Dear Commission Members,

I am writing to you regarding PSC Case #2025-00045-LGE-KU CPCN, voicing my opposition to LG&E's application to expand facilities to produce the estimated 400 megawatts of electricity needed for the proposed data processing center near Camp Ground Road.

This multi-billion dollar power facility will increase consumer costs and pollution for LG&E customers and citizens for decades to come. These data centers do not produce economic impact worthy of these deleterious impacts to our state and community.

Please do not approve LG&E's request to build these new power facilities.

Thank you for attention to my request.

Thank you for your service.

Subject: Public Comment Case #2025-00045

Dear Public Service Commission,

With electricity costs already too high for many Kentuckians we can not allow our utilities to invest in excess generation to power unconfirmed data centers. These new power plants are unnecessary and risky. Instead of spending money to build new power plants, LG&E-KU should be investing in energy efficiency and Demand-Side Management programs that will lower our power bills and reduce the need for new power plants.
