Subject: Case #2025-00045

Hello,

I am deeply concerned about and strongly opposed to LG&E being granted permission to build new plants aimed at attracting data centers. These projects will drain more life and resources from Louisville while offering very little benefit to its residents.

The increased pollution, emissions, and massive energy consumption from

these facilities will further harm our community's health, environment, and quality of life. We've already seen similar projects in neighboring parts of Ohio lead to higher energy rates and worsening air quality why should we allow the same to happen here?

As a resident of Shively and a property owner in West Louisville, I speak not only for myself but for many residents who already shoulder the burden of pollution from Rubbertown.

Data centers that create few jobs while consuming enormous amounts of land and energy are not wanted in our city.

Louisville deserves sustainable development that benefits the majority— not projects that put profit over our health and environment.

Thank you,
Raeven Cockrell

“Valued customer” of LG&E
