State the nature of your concern: I am writing to complain about the notice of the proposed KY Utilities rate increase request. This increase is exorbitant and creates a greater burden on my wife and I who are living in retirement on fixed incomes. KU should be restricted to less of a rate increase and the PSC should require them to improve their business and administrative management strategies instead of forcing the public to pay for business practices that could undoubtedly be improved. Without the PSCs requirements for improved business practices, this rate increase trend will continue to harm KY retirees and all their customers. With all the newer technologies available for less expensive green electricity generation, and decreasing their reliance on coal which harms our health and climate, KU should be looking for improved efficiencies rather than slouching upon past practices to insure their profitability.
