[REDACTED] [REDACTED] ?

Regarding the increase in rates requested by KY Utilities, I, as a single-income homeowner and as a senior citizen on a fixed income, notice that the increase for Residential would be a monthly \$ increase of \$18.15, or a monthly % increase of 13.55. This is UNacceptable!  
A monthly dollar INCREASE of nearly \$20 for me--to

reiterate, a solo homeowner and a senior citizen on a fixed income--is A LOT of money!

In addition, why is the increase for Residential over 2% HIGHER than the average proposed annual increase?!  
(13.55 - 11.5 = 2.05%)

Please take note of these concerns concerning Case No. 2025-00113. Thank you.

**Subject:** KU rate increase

[REDACTED]

Really? I just received the electric bill and saw the notice about increasing the rates of electricity. I'm a regular residential customer and my electric rate may go up 13.55%. Why???? Food, gas, clothing and other necessities haven't increased anywhere near as much as that. Their notice indicates an increase just for residential customers of 100 million dollars annually. That doesn't include over another \$110 million from other customers! It's not like if Kroger raises their prices and I don't like it I can go to another grocery. This is Kentucky! I don't have any other choice for electricity. I don't think I can call up an electrician and say come and change my service to xyz utilities. There is no other option that I'm aware of. So if they keep raising the electric rates I may have to give up something else just to pay to heat and cool my home and keep the lights on or try and figure out to live without electricity in this modern age where everything pretty much requires it.

I'm pretty sure KU will not fold or go out of business if they don't receive all the money they think they need. I did not try to find out why they say they

need another \$200 million per year. But I'm sure in their minds they believe it to be justified. Like a lot of Kentuckians I'm retired and on a fixed income and I assure you it's not going up 13.55% (unless you all can do that also). I understand that what I'm saying doesn't matter to you or anyone at KU but I would urge the Public Service Commission to at least consider the people in the state who don't make 6 figure incomes when they vote on this issue - if they haven't already.

Dan Masters

Below is the result of your feedback form. It was submitted by  
[REDACTED] on Thursday, July 10, 2025 at 3:14 PM

-----  
Name: Martin Henderson

Address: [REDACTED]

City: Lawrenceburg

State: KY

Zip Code: 40342

Phone number where you can be reached: [REDACTED]

Home phone:

Utility Name: LGE KU

State the nature of your concern: A rate increase of 11.5% would be a disaster for retired

and elderly people on fixed incomes! There NEEDS to be a provision for US on fixed incomes and the elderly! PLEASE HELP US! Thank you, Martin Henderson  
Have you contacted the utility about the problem: No

I am writing because I received a notice from Kentucky Utilities that they have applied for a rate increase. I am asking that you please not approve this increase.

I know I'm not the only one who will suffer due to this exorbitant rate increase. I am a single working mom with two kids. I barely have enough money to pay the bills already. Groceries are going up, my homeowners insurance has increased and my paycheck is not increasing. There are many people worse off than I am, and if I can't handle it, they certainly will not be able to.

Please look at the overall picture of Kentucky and have mercy on us who are barely making it already by not approving this rate increase.

Sincerely,  
Penny Arnett  
-Somerset, KY
