Comments: LG & E is requesting an increase to its electrical/gas rates due to increasing costs. I am requesting a denial of this request. My every day operating costs are increasing, as well, but, as a private citizen without a CEO who earns millions of dollars running my operations, I do not have the option of requesting an increase to my incoming flow of funds. In addition, LG& E has installed "more efficient" electronic meters. My bill this month for the same relative kWh as last year has already increased substantially over the same month last year. With these "more efficient" meters installed and bringing in more funds, the company shouldn't need to increase their rates. Thank you very much for reading/hearing my comments.
