Subject: Case 2025-00114

To all who may find some concern and compassion:

It is with great alarm I submit this request to deny the current rate increases for LGE/KU.

I am currently retired for five years now and at this point my income is absolutely FIXED. For the first time in my life I seek assistance for my utilities or don't pay a medical bill, food bill, or do without necessary medical needs.

I am not the only one. I am from a family of five living generations of the very young to the eldest. As in many families we support each other when we can, but current times make it nearly impossible. Neighbors and friends are not escaping the tough times financially either.

Please deny or greatly reduce the amount of this increase and burden that will be borne by the least likely able to afford the added costs of keeping warm or cool. The obvious environmental implications for added gas pipelines and the use of coal is STILL there! Stop ignoring our concerns regarding the cost to breathe clean air and living dangerously

near these plants.

L A Thomas
