T: PSC Case #2025-00114

As a Kentucky resident I ask that you minimize any rate increase for all residents. It is important that rate payers are protected over investors.

Bridgett Miniard

LOUISVILLE, KY 40220

To Whom it Concerns: 2025-00114

L.G.E. bills are too much as it is. Raising rates puts high risk folks in jeopardy. Homelessness is on the increase. Large L.G.E. bills can cause further undue harm against society.

Sincerely, Carol Balogh 3109 Churchill Pl. #118

TO PSC case # 2025-00114

I'm imploring you to think about what ~~of~~ impact you have on real people when you raise utility rates. People are struggling. Please minimize any ~~not~~ monthly rate increases. Put people first over corp. profits! Erik Steine 40213

Case #2025-00114 Enough is Enough

The greed of LG&E/KU's shareholders is unconscionable and grinding down rate payers' finances and quality of life.

This is evident in the recurring rate increases, slow uptake of renewable energy, expanding ways to get even more of rate-payers money (e.g. maintenance of data center salivation But not in your backyards.

Dear PSC case # 2025-00114

Please be considerate and be
cautious and minimize any rate increase

People over \$ + Power!

To PSC re: Case# 2025-00114

As a senior on a fixed income,
it's crucial to maintain current
LG+E-KY rates. I am not alone.
Please consider service users over
investors.

Case # 2025-00114

The Commission needs to respect the needs of utility users. LG+E and KU should be considered first as SERVICES, not sources of profit for investors.

To PSC Case # 2025-00114

I am asking that you think about rate payers over investors in this recent request by LG+E to ↑ electricity by 8.30% + natural gas by 14%.

Where is the necessary + recently promised Green Energy. Think about people over profit. Thanks

It's time to put the "public" back
into "public utilities"

To PSC

Re: Case #2025-0014

I live in a low-income neighborhood. Despite installing solar panels + completing energy-~~fix~~saving improvements, my bills have substantially increased. I'm able to afford the bills, but I know my neighbors are struggling. Our rate-payers deserved to be prioritized over wealthy investors. Please work to minimize rate increases

Katherine Albrecht-Shaw

TO PSC Case# 2025-00114

Please Stop the rate increases!

Ratepayers should not have to pay to give utilities more profit so they can make said profits off of big business while saving the businesses themselves money. The young and old people in tennis shoes should not be seen as an endless pot of money! - Bruce Bohm
