Comments: I am a resident of Greensburg, KY, and I am deeply concerned about the implications of the proposed Exie Solar Project by National Grid Renewables. This endeavor aims to establish solar "farms" that threaten to obliterate 1,800 acres of our precious local land, forever changing our landscapes and habitats. What's more, there will be a severe impact on the environment and biodiversity of our region. As someone who witnessed the devastating impacts of solar farms while living in Pennsylvania, I am opposed to the same happening in Green County, Kentucky, where I now reside.
