Subject: Public Comment for Case Number: 2025-00151 - Exie Solar, LLC

Dear Kentucky Public Service Commission,

I am writing in support of the Exie Solar project in Green County (PSC Case No. 2025-00151).

This 110-megawatt facility will save energy customers money, strengthen Kentucky's power grid, and create real local economic benefits for our community. Solar projects like Exie help prevent power outages and keep our grid reliable, which is vital for the health, safety, and prosperity of Green County families and businesses.

This project will help us use the cheapest energy available while reducing our dependence on expensive out-of-state energy sources. Exie Solar will create good-paying construction and maintenance jobs right here in Green County. This is proven technology that strengthens our energy independence and puts Kentucky energy dollars back into Kentucky pockets.

Solar operates quietly and without pollution, making it a respectful neighbor that preserves our rural way of life while bringing modern economic opportunity. Exie Solar represents energy freedom and economic common sense. It keeps energy production local, keeps dollars in our community, and proves that Kentucky can lead in both traditional values and forward-thinking development.

I urge the Public Service Commission to approve Exie Solar for Green County. Thank

you for your consideration.

Sincerely,
Jonas Desir
Louisville, KY 40229
