PUBLIC SERVICE
COMMISSION

I live in the area where this solar panels proposal is scheduled to be. I attend, and have all my life at The Fairview Church of Christ, which is right beside the proposed site. I did not or any of my family receive any certified or non certified letter or phone call about this project. I am opposed for this project to proceed. We do not know what the side affects of this project will do to the health of the people in this area. This is good farm land that has been producing food for eating that will be destroyed if this goes through. Good farms ^{land} is disappearing so we need to preserve it as much as possible. The people of this community are against this solar project. I am a land owner in this neighborhood.
