IN RE: Docket #2025-00180
VB BTS III, LLC, d/b/a Vertical
Bridge and New Cingular Wireless,
PSC, LLC, a Delaware Limited Liability Co.

Dear Sir or Madame:

Recently I received a Certified Letter from the Pike Legal Group, PLLC, located at 1578 Highway 44 East, Unit 6, P. O. Box 369, Shepherdsville, KY 40165-0369, stating that the above mentioned Limited Liability Company has filed an application with the Kentucky PSC to construct a cellular tower at 264 Hill Drive, Chavies, KY 41727, under AT&T branding.

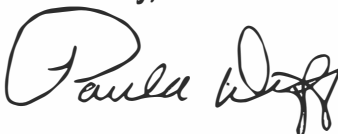

My home is located at 157 Hill Drive, Chavies, KY 41727, which is within 500 feet of the proposed cell phone tower construction site. Many residents of this community will also be affected by the dangers of being a short distance from the tower. This makes me very anxious about the impact the cell phone tower Radio Frequency Radiation will pose to my overall health, the health of the Chavies community and future property values.

Various research studies have shown that the radiation from cell phone towers increase the risk for various types of cancers and DNA damage in the brain and blood cells of humans and animals. Computer simulations done in Germany also indicated that residents living within 1300 feet or less of a tower increased the risk to 100 times greater. In Sweden Microwave Syndrome cases have been noted in individuals living near the newly placed 5G cell towers.

I realize that the US Federal Communication Commission (FCC) and other regulatory authorities have not yet recognized the effects exposure to RF levels can have on individuals living near a cell phone tower and consider them "no reason for concern". I am still convinced that, in the future, the research findings will confirm that they do indeed pose a threat to my health, the health of my community, and our future real estate values.

After considering the unfavorable effects of a cell phone tower's presence at 264 Hill Drive, Chavies, KY 41727, I am expressing my opposition to its construction.

Sincerely,

A handwritten signature in black ink, appearing to read "Paula Duff", with a stylized, cursive script.
