I can not even believe you are considering another rate increase in electric bills for AEP. The people in Knott county and surrounding counties are barely making it right now. Jobs are scarce and a lot of people are on fixed income. You are going to push so many people into living without electricity and their kids will suffer. I hope you can sleep at night because I could not if I were doing that. My electric bill was \$500 and we were not here 10 days of that. That is so ridiculous. Do you know what minimum wage is in Kentucky. People can not live and pay these type of bills. Something has to be done. There has to be a stopping point. So I am going to write letters to anyone I think can help the people of Kentucky. Shame on you for allowing this over and over again.
