Utility Name: Kentucky power

State the nature of your concern: Look at the PROFITS recorded. 7% increase in per

share. Tell me why they need a raise? Maybe advise them that ceos making millions 13millions per year is where they should start of they want to make changes and "earn" more profits. Not the backs of consumers. Id also like solar power information. Lets get some grants offer better power bills for those. You can start with my house and use it to show others. Ohhh yea kentucky power made use of solar panels less beneficial to consumers as well.

Have you contacted the utility about the problem:

To: PSC Consumer Inquiry <PSC.Consumer.Inquiry@ky.gov>
Subject: NO to the Rate Increase

I am emailing you in regards to the proposed 14.9% residential rate increase. JUST SAY NO FOR OUR CHILDREN & ELDERLY. They are the ones who are going to suffer. Many programs are getting cut that would help with their utilities being paid when they fall short. We have suffered many loses over the last several years due to the flood. People are just now getting back on their feet. This will be adding fuel to the fire. You should be ashamed.

Utility Name: Kentucky Power

State the nature of your concern: The power bills in this area are way out of control, and

the PSC continues to allow Kentucky Power to raise rates. My power bill due next week is just over \$465, last month it was \$425. As bad as those bills are, January and February will be close to \$600. There go to is it was hotter last month than last year. They say that every time you call in the summer and opposite in the winter. In the summer we keep our air set to 74, where we use to keep it on 71. I've replaced all I can with more energy efficient things, but you all continue to allow them to take advantage of some of the poorest areas. When will you all draw the line? Why are rates so much higher here than elsewhere. No family member I have that lives in Tennessee and Georgia experiences rates this high, not even close.

Utility Name: Kentucky power

State the nature of your concern: In Eastern Kentucky our power bills are already

exorbitant and have increased 4 times in the last 10 years either with rate increases or some sort of fee. At what point does shareholders eat the cost of something and not consumers? I don't pay extra fees to anyone or on anything else and would be appalled if asked when already paying astronomical prices for subpar service. If you approve this please also approve some other company to come in without having a mountain of red tape. I have talked with other companies and was told they are not allowed to enter. Please consider the population and the fact that we already have the highest bills in the country in one of the poorest regions. This is asinine to even consider. If anything the bill should be lowered. The added fees dropped. I don't pay for gm to tear down factories or make changes to meet epa standards why am i paying the power company. They make billions and take no losses while the people who have no other options pay the price. Have you contacted the utility about the problem: Yes

State the nature of your concern: I am writing to voice my concerns about the rate increase for the AEP power company. We recently got a rate increase and now another?

With the cost of living not changing how do you expect people to be able to pay these bills? The elderly and low income customers will have to choose between electric and buying food for there family's. Any other place that offers electrical service is no where near what AEP is charging people. Is there not a law for price gouging because I truly believe this is exactly what you're doing.

Case#2025-00257 Kentucky Power Rate Increase.,...

We absolutely are furious over the Kentucky Power Rate increase proposal!!!! We cannot pay our current electric bills. This Kentucky Government has to help us!! My electric bill last month was over \$400..... it is crazy!! I live in a very small 24x48 house that is well insulated, with an excellent cooling and heating unit, new water heater, I have trouble shooting everything this electric company has tossed onto us like this is on our end!!! It absolutely isn't and we cannot pay anything more. I refuse to work another job to keep this service. I'm sorry but this electric company needs to cut the cost on their budget!!! If you don't help us!!! I pray the person reading this has nightmares about the well being of our community. You don't deserve your job!!!

Subject: Case #2025-00257

I am asking that the commissioners of the State of Kentucky absolutely do not approve a rate increase for Kentucky Power.
I live in Pike Co., and we have suffered and been financially raped by them for TOO long. No one pays the rates we do here in Ky, especially Eastern Ky for power! They know that we have no other options and that's why they continue to petition for rate increases.

This has been a horrendous hardship for families for years now.
We need a VOICE, we need to be heard!! No wonder people are leaving our state. This is one reason, besides the fact of no industry. I'm tired of my husband and I working to give them a large portion every month. It isn't fair not is it expedient.

My parents and so many other retired recipients are giving up their livelihood for power. It's a disgrace and it should've NEVER happened.

STEP-UP and do the right thing for Eastern Ky and the rest of the state!

Case #2025-00257

From: Tommy [REDACTED]
Sent: Wednesday, August 27, 2025 9:58 AM
To: PSC Consumer Inquiry <PSC.Consumer.Inquiry@ky.gov>
Subject: Ky. Power Rate Increase Request

[REDACTED]

I'm a small business owner in eastern KY. & have been struggling to stay in business ever since the government's war on coal. With the downturn in the economy in this area it's hard enough to make ends meet without having to foot the bill for the rich to become even richer. Ky. Power Co. Has already been given far too many rate increases already making record profits, AEP's full-year 2024 GAAP earnings were \$2.97 billion or \$5.60 per share. How much does a company have to make before it's too much. As a small business owner I don't think we can stand any more burdens placed on the backs of the people who can least afford it. Ky. Power has stated due to the loss of customers as one of the reasons they need yet another increase, but maybe just maybe the cost of providing power to our homes is the reason people are leaving. I urge you to not only deny this newest rate increase but encourage Ky. Power to decrease the rates & give their customers a little breathing room for a change. I think that nearly 3 billion in profits would be sufficient for any company, I know that

I would sure like to have a profit anywhere close to that. Thank You for allowing me to vent, as I also know my opinion doesn't mean anything. Thomas Justice

 AI Overview

 +1 :

AEP CEO Bill Fehrman has an annual base salary of **\$1.5 million**, with his total compensation for 2024, including bonuses and long-term incentives, reaching approximately \$13.26 million. His salary was set at \$1.5 million upon his appointment in August 2024.

Here's a breakdown of his compensation components: 

- **Annual Base Salary:** \$1.5 million
- **Short-Term Incentive:** A target of 155% of his base salary.
- **Long-Term Incentive:** A target of \$10.5 million for 2025, consisting of performance shares and restricted stock units.

For the year 2024, his compensation included prorated short-term incentives and specific long-term incentives, bringing his total compensation for that period to \$13.26 million.

Utility Name: AEP /Kentucky power
State the nature of your concern: I live in southeastern Ky., and the utility mentioned

above has just got an increase. They are now asking for another after having a record year. this is not only hurting me but my neighbors and my mom who is in a fixed income that doesn't increase as the utilities are. There is no jobs other than a few hospital and restaurants which pay more but give less hours, so how does that help. I have seen several people post that they are selling and moving after the school year ends moving to central Ky, Florida or TN. They all that have cheaper rates. Which when we move it puts a bigger burden on the ones that's left they will have to pick up the slack if the increases. I'm asking on behalf of myself and others to please not allow this increase. Have you contacted the utility about the problem: Yes

Utility Name: KY AEP

State the nature of your concern: Request for increase rate again...these electricity rates are already ridiculous. A single mother working to make ends meet even as a nurse it is

hard to pay these outrageous bills. My monthly bill already averages 600-700 a month that's in the summer. Winter months are 1200-1300 or more. AEP is making it rich off hard working Americans something has got to stop people can't continue paying these outrageous prices and they continue to ask for more and more!
