Thank you for taking the time
to read this. Our Electric Bill has
double the last 2 months. And
now going up 15% more. I myself
will have a hard time paying this
bill. What are people going to
do? Other States don't have
this problem. Why do we?
Please help us. We are calling
out for help. I'm really concerned.
I'm praying this doesn't happen.
And the bill goes down to what
it already was.

Thanks
