Comments:

I am writing in regard to the AEP rate increase that they have requested, if this rate increase pass it would make it difficult on my household and the complete community as well...it is hard to budget right now as my wife and I live on a fixed income so therefore higher utility bill would mean doing without things such as groceries, Dr visits and meds

From: Sanders Turner  
City: Booneville  
State: Kentucky  
Zip: 41314

Comments:

As a customer of Kentucky Power I cannot agree to the proposed rate increase for next Spring due to a number of reasons:

- 1). My family and I are on a fixed income and cannot make ends meet now as it is with the economic crisis our nation is in at this time. This rate increase would be catastrophic to many families in our area.
- 2). The quality of service we receive is not meritorious of a rate increase. The amount of frequent power outages we have does not reflect a deserving need for a rate increase. Our bills are being surcharged too much as is. We in the geographical area should not be paying for a Big Sandy plant project when it has no bearing on our service.

Comments:

The proposed rate increases are exorbitant and are going to be too high for most people to pay. People will be unable to heat their homes and run their medically needed machines. Be reasonable and rethink your impact these rate increases will on the health and comfort of most people in our area. Have a Heart people can't pay these extremely high rates added to the price of everything else.

Thank you for caring!

Comments:

Our household request you deny the rate increase request from Ky Power at this time. It is unacceptable to have such frequent and high rate increases. The average family cannot continue to absorb the frequency that these are occurring . Thank you

Comments:

Rates are already high enough, it's a struggle to pay \$700 a month. My power was off more than it was on in the month of August because of outages, doesn't seem like they are doing a very good job in keeping the lines cleared, and want a raise on top.

Comments:

I am filing this complaint in regards to AEP announcing filing for a 13-15% rate increase for power bills in EKY. Families, including my own, are already struggling to pay what we do now. This increase will cause even more financial hardship for all of EKY. It is sad that this would even be considered. I am asking for this to not be allowed to happen.

Comments:

The rates we are paying are ridiculous and unfair, as is. Unbelievable that there is talk about an increase. What are working people to do, choose electric or feeding their families.

Comments:

Without this 13-15% increase I am already struggling to pay my power bill. During the winter later year at one point it was \$800. There are only 2 people in my home at all times. This is ridiculous. How do you expect people to live? We live in a small rural area where people struggle to live day by day. Now you want to take a necessity and make it unreachable. My power bill should not be \$500 a month during the summer. This is outrageous.
