Comments:

Enough is enough! The 15% rate hike Ky Power is asking for is ridiculous and bad timing when eastern KY residents can barely afford the high(est) rates they're paying now. Kentucky Power customers have subsidized ~ \$66 million in transmission projects outside Kentucky. This is far more than what was invested here at home. What's wrong with that picture? Let's take care of KY residents for once and deny this increase in any form - no "negotiating" when a utility asks for a preposterous increase and then "settles" for a high single digit increase like 8 or 9%. We taxpayers can't take another increase when we're already paying the highest rates in the state.

I implore you to come down on the side of the people who are tapped out and not interested in increasing the profits of these companies to satisfy their greed. Ky Power is owned by AEP, whose trailing 12 month profits (ending June 30, 2025) is 3.65 BILLION. Enough is enough!!! The taxpayers have had enough of this nonsense.
