Comments:

As a residential customer of Kentucky Power, I am writing to express my strong opposition to the proposed 15% rate increase. I can barely afford to pay my electric bill as it is. Raising rates any further would make it even harder for low-income residents like me to meet basic needs.

We are already struggling in Eastern Kentucky, and many of us live on fixed incomes or low wages. A rate hike of this size would force difficult choices between keeping the lights on and buying groceries, medicine, or other essentials.

I support the efforts of groups like Kentuckians for the Commonwealth and the Appalachian Citizens Law Center who are working to keep energy affordable for all of us. A just and fair energy system should prioritize affordability and sustainability—not place further burdens on those who can least afford it.

I urge the Public Service Commission to reject this rate increase and to consider the real-life impact it will have on families across the region.
